# **School District Integrated Pest Management Plan**

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.

An IPM plan is required if a school district uses pesticides:

Monitoring and inspecting for pests and continuous district staff/maintenance staff (Example: District staff title, e.g. Maintenance staff)		e done regularly by nicated to the IPM Coordinator.				
Specific information about monitoring and	d inspecting for pests, such as locations	s, times, or techniques include:				

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

- 1) Routine inspection done by custodial/maintenance staff.
- 2) Placement of monitoring traps for roaches, mice, rats and fleas.
- 3) Site staff submits WO for pest management services.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants	×				X	X		
Roaches	×					X	×	
Mice	×			×	X	X		
Rats	×			X	X	X		
Fleas						X		
Wasps			X					

## Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

Sent out annually.

Hea	lthy	<b>Schools</b>	Act
0.00	0.000	W #110019	1000

This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 – 17613, 48980.3; Food & Agricultural Code Sections 13180 – 13188)

#### **Training**

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

## Submittal of pesticide use reports

Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at <a href="https://www.cdpr.ca.gov/schoolipm">www.cdpr.ca.gov/schoolipm</a>, (Education Code Section 16711)

### Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- This IPM plan can be found online at the following web address: www.lodiusd.net
- This IPM plan is sent out to all parents, guardians and staff annually.

#### Review

This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of new review: 4/22/2022

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature: Browll State - Date: 6/22/2022

<sup>&</sup>lt;sup>1</sup>These pestic des are exempt from all Healthy Schools Act requirements, except the training requirement; 1) products used in self-contained balts or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)
