

Administration

Management Group Relations Team

The Board of Education of the Lodi Unified School District recognizes a responsibility to receive input from constituents and employees at all levels in the determination of school policies. Some policy areas have a special impact upon administrative personnel in their professional and personal roles, and it is prudent for the Board to maintain a channel of communications with management personnel.

A Management Group Relations Team is hereby established with the following composition:

Two members of the Board of Education, appointed by the Board president,

Five members of the management team, including a non-instructional program manager, appointed by the president of LUSDAA (Lodi Unified School District Administrators' Association),

The Board president (ex-officio),

The Superintendent (ex-officio).

The team will be convened at the request of LUSDAA. The purpose of this team is to discuss criteria, procedures, and/or programs in areas of mutual concern and to forward recommendations for action to the superintendent. The Board of Education will receive recommendations as specific agenda items in public session for consideration and action. Negotiations or bargaining on any matter are specifically excluded from this process.
