Evaluation/Supervision

The Board of Education believes that regular and comprehensive evaluations can help instructional staff improve their teaching skills and raise students' levels of achievement. Evaluations also serve to hold teachers accountable for their performance. The Superintendent or designee shall evaluate the performance of certificated staff members in accordance with law and negotiated contracts.

The Superintendent or designee shall ensure that certificated employees have access to written regulations related to the evaluation of their performance in their assigned duties.

Evaluation procedures may include observation of teacher performance in the classroom.

The Superintendent or designee shall ensure that evaluation ratings have uniform meaning throughout the district.

Evaluations shall be used to recognize the exemplary skills and accomplishments of staff and to identify areas needing improvement. When areas needing improvement are identified, the Board expects employees to accept responsibility for improving their performance. The Superintendent or designee shall assist employees in improving their performance and may require participation in appropriate programs. Staff members are encouraged to take initiative to request assistance as necessary to promote effective teaching.
