

# LODI UNIFIED SCHOOL DISTRICT

## Policy 5141.31

### Students

#### Immunizations

To protect the health of all students and staff and to curtail the spread of infectious diseases, the Board of Education shall cooperate with the state and local public health agencies to encourage and facilitate immunization of all district students against preventable diseases.

Each student enrolling for the first time in the district's elementary or secondary school, preschool, or child care and development program shall present an immunization record from any authorized private or public health care provider certifying that he/she has received all required immunizations in accordance with law. Students shall be excluded from school or exempted from immunization requirements only as allowed by law.

#### **Transfer Students**

To enroll in school, all transfer students must present a written immunization record which shows at least the month and year of each immunization. The student shall receive all required immunizations currently due before he/she is admitted to school. Such evidence may include the student's personal immunization record from his/her authorized health care provider or his/her cumulative file from his/her previous school.

The Superintendent or designee may arrange for an authorized health care provider to administer immunizations at school to any student whose parent/guardian has consented in writing. Parents/guardians shall be notified of their right to provide consent for the administration of an immunization to their child at school.
