

Students

Married/Expectant/Parenting Students

The Board of Education recognizes that early marriage, pregnancy or parenting may disrupt a student's education and increase the chance of a student dropping out of school. The Board therefore desires to provide instruction and services designed to assist in pregnancy prevention. The Board also desires to support married, expectant and parenting students to continue their education, attain strong academic and parenting skills, and to promote the healthy development of their children.

The district shall not discriminate against any student on the basis of the student's marital status, pregnancy, childbirth, false pregnancy, termination of pregnancy, or related recovery. (Education Code 230; 20 USC 1681-1688)

For school-related purposes, a married student under the age of 18 years shall have all the rights and privileges of students who are 18 years old, even if the marriage has been dissolved. (Family Code 7002)

Education and Support Services for Expectant and Parenting Students

Pregnant and parenting students shall retain the right to participate in any comprehensive school or educational alternative program. The classroom setting shall be the preferred instructional strategy unless an alternative is necessary to meet the needs of the student and/or his/her child.

Any education program or activity, including any class or extracurricular activity, that is offered separately to such students shall be comparable to that offered to other district students. A student's participation in such programs shall be voluntary. (34 CFR 106.40)

Expectant and Parenting Students

The goals for the district's program serving expectant and parenting students shall be to provide continuity in education; increase attendance rates; enable achievement of district academic standards; increase graduation rates; develop positive parenting, decision-making and coping skills; develop economic self-sufficiency through job skills; and reduce the incidence of repeat pregnancies for minors.

A student may be required, based on her pregnancy, childbirth, false pregnancy, termination of pregnancy, or related recovery, to obtain certification from a physician indicating that she is physically and emotionally able to participate in an educational program or activity, if other students with physical or emotional conditions or temporary disabilities are required by the district to provide such certification. (34 CFR 106.40)

To the extent feasible, educational and related support services shall be provided, either through the district or in collaboration with community agencies and organizations, to meet the needs of pregnant and parenting students and their children. Such services may include, but are not limited to:

1. Child care and development services for the children of parenting students on or near school site(s) during the school day and during school-sponsored activities
2. Parenting education and life skills instruction
3. Special school nutrition supplements for pregnant and lactating students pursuant to Education Code 49553, 42 USC 1786, and 7 CFR 246.1-246.28
4. Health care services, including prenatal care
5. Tobacco, alcohol, and/or drug prevention and intervention services
6. Academic and personal counseling
7. Supplemental instruction to assist students in achieving grade-level academic standards and progressing toward graduation

As appropriate, teachers, administrators, and/or other personnel who work with pregnant and parenting students shall receive related professional development.

Absences

Pregnant or parenting students may be excused for absences related to confidential medical appointments in accordance with BP/AR 5113 - Absences and Excuses.

The Superintendent or designee shall grant a student a leave of absence due to pregnancy, childbirth, false pregnancy, termination of pregnancy, and related recovery for as long as it is deemed medically necessary by her physician. At the conclusion of the leave, the student shall be reinstated to the status she held when the leave began. (34 CFR 106.40)

A pregnant or parenting student also may request exemption from attendance because of a related physical or mental condition or because of personal services that must be rendered to a dependent. (Education Code 48410)

Reasonable Accommodations

When necessary, the district shall provide reasonable accommodations to pregnant and parenting students to enable them to access the educational program. A pregnant student shall have access to any services available to other students with temporary disabilities or medical conditions.

The school shall provide reasonable accommodations to any lactating student to express breast milk, breastfeed an infant child, or address other needs related to breastfeeding. A student shall not incur an academic penalty for using any of these reasonable accommodations, and shall be provided the opportunity to make up any work missed due to such use. Reasonable accommodations include, but are not limited to:

1. Access to a private and secure room, other than a restroom, to express breast milk or breastfeed an infant child
2. Permission to bring onto a school campus a breast pump and any other equipment used to express breast milk
3. Access to a power source for a breast pump or any other equipment used to express breast milk
4. Access to a place to store expressed breast milk safely
5. A reasonable amount of time to accommodate the student's need to express breast milk or breastfeed an infant child

Complaints

Any complaint alleging district noncompliance with the requirements to provide reasonable accommodations for lactating students also may be filed in accordance with the district's procedure in Rule 1312.3- Uniform Complaint Procedures. A complainant who is not satisfied with the district's decision may appeal the decision to the California Department of Education (CDE). If the district or the CDE finds merit in an appeal, the district shall provide a remedy to the affected student.

Program Evaluation

The Superintendent or designee shall periodically report to the Board regarding the effectiveness of district strategies to support married, pregnant, and parenting students, which may include data on participation rates in district programs and services, academic achievement, school attendance, graduation rate, and/or student feedback on district programs and services.
