

LODI UNIFIED SCHOOL DISTRICT

Policy 6164

Instruction

Individual and Remedial Services

The district intends to maintain programs designed to meet the identified special needs of pupils. Other social agencies and services may also be available to assist pupils and/or their parents or guardians. Appropriate certificated employees of the district are authorized to give information regarding community resources to pupils and/or their parents following procedures specified by the superintendent.

Because referral to other agencies can be construed as an endorsement of the competency of the service, whenever clients are referred to non-governmental agencies or individuals, at least three sources, state-licensed in their speciality, shall be cited. Without exception, it is not within the bounds of appropriate practice to direct or suggest that any particular doctor or practitioner be seen. Referrals will not be made to unlicensed persons or agencies, unless they have been certified to the appropriate list of services by the Board of Education.
