

**RFI #1**

**Project: Lodi USD Prop 39 Year 3-5 Lighting Retrofit**

**Date : 05/03/2018**

Q1. On your lighting schedule, you indicated which areas have existing OC. Are we to assume that if the

**A1. No, the project does not require installation of OC**

---

Q2. What percentage of the current OC are currently working?

**A2. Responding contractors are not responsible for replacement of existing OC**

---

Q3. For the fixtures that are to be replaced with tubes and drivers, are you wanting Type A or Type C w

**A3. Acceptable solutions are LED lamps and new compatible ballasts or LED lamps and dri**

---

Q4. For the fixtures that are being replaced with plug and play, do we need to provide a new ballast? I'

**A4. Yes a new power supply is required for all plug and play fixtures**

---

Q5. McNair lighting, you have indicated that some fixtures need to be verified for quantity. Do we price

**A5. As the RFP states the contractors are ultimately responsible for their counts. In the ev  
note the additional fixtures you have included in your proposal so they may be accoun**

Are there any existing OC that you want one installed?

---

---

With new LED drivers?

Drivers.

---

Make sure that some of them may need to be replaced.

---

Provide the given quantity and deal with the correct number if we win the bid?

**Will you identify additional fixtures beyond the counts included in the RFP submitted for in the evaluation process.**
